FILTERS, INC.™

SwiftGreen™ Filter Elements Can Cut Your Expenses and Your Disposal Volume.

The unique SwiftGreen filter element design separates what needs to be disposed from what can be retained from a used filter element. Our removable bypass valve assembly is precision machined aluminum, and can be used indefinitely.

- **Minimize potential hazardous waste issues**
- **Save on repeat filter element purchases**
- **Reduce your environmental "footprint"**

SwiftGreen Technology is available to replace Hydac™ return line filter elements as well as filter elements from other manufacturers.

Replaces Hydac Series

0060R, 0110R, 0140R
0160R, 0240R, 0280R
0330R, 0500R
0660R, 0850R, 1700R
0950R, 1300R, 2600R

All return line elements utilize the latest generation of **SwiftGlass™** Bx(c) ≥ 1000 (per ISO 16889) micro-fiberglass filter media. This media provides high levels of fluid cleanliness while maintaining low pressure drop characteristics.
